

Leadership & People Management Level 4

Course Overview

The Leadership & People Management Level 4 introduces professionals with procedural knowledge with elements of abstraction and theory in leadership people management and managerial approaches. The course touches on how to engage in planning and allocation of resources as well as guide others, under general supervision.

Learning Outcomes

- Gain the skills and knowledge required to lead the implementation of vision at the operational levels within an organisation
- Identify innovation and skill requirements, facilitate learning opportunities and coach team leaders to communicate freely

Who is it for?

The two-day programme is catered for Professionals, Managers, Executives, and Technicians (PMETs), as well as aspiring PMETs, across all sectors
